

## **ShopSite Knowledgebase**

### **Changing text of Shipping Options**

The default text for the ShopSite-calculated shipping options is "Ground", "2nd Day", "Next Day", "Shipping 4", "Shipping 5", etc. Can this be changed to the text that I want it to be?Solution ID: S02518

From the ShopSite backoffice, go to Preferences > Store Text > Shipping. Here you can change the text of the shipping option names for all of the ShopSite-calculated shipping methods to whatever name that you want for them.

Also, note that there are several sections within the Store Text screen. Almost all of the text that the buyer sees in your store can be modified here.
