When downloading tar and cgi files for an upgrade, what mode should my FTP server be in?Solution ID: S03733
Tar files and cgi files are downloaded in binary mode. Only text files should be downloaded in ascii mode.
Solution ID: S03733
Additional details on upgrading may be found at http://www.shopsite.com/help/upgrading.html . For information on downloading patches, see ShopSite Solution S03704.
