ShopSite Knowledgebase

More Information Page graphic isn't showing up.

You have specified a graphic for your more information page, but when you Update, you can't see the graphic.Solution ID: S02734
In order to display a graphic on the More Information Page, the "Display Graphic?" checkbox for that product must be checked. To check this, go to the Products section and click on "Edit Product Formatting" for the appropriate product. You can also change this through Power Edit.
