

ShopSite Knowledgebase

Can you remove the Payment Option fields for the Generic Payment Options?

Product: ALL

Version: ALL

The following will discuss the ability for users to change the the Billing Information to show only one entry in the payment setup as opposed to the 4 currently listed. It will show one box and not show the Credit Card Information such as Card #, Name, Expiration, etc.

Solution ID: S03551

Go to the Preferences -> Store Text -> Billing menu in your ShopSite backoffice. If you would like a field to not be presented to customers to be filled in, blank out that line. For instance, if you want to remove "Generic Payment Option 1 Field 4", you can remove all of the text for that field.
