ShopSite Knowledgebase

'Error verifying store.auth'

Product: ShopSite SC
Version: All
Platform: All
When clicking to order an item (buy button or link) an error is returned:
This store may not be authorized to run ShopSite software. Please contact the merchant or webmaster.
Solution ID: S03686
Check URL in the store.auth file to verify that it matches the URL to the store used in the browser.
If a new auth file is obtained, see Solution S03192 for full instruction on how to replace the store.auth file.
