ShopSite Knowledgebase

How to obtain an authorization file (auth file).

Product: ShopSite SC
Version: ALL
Platform: ALL
How do I get an authorization file to set up a new store or change the information in my current store?Solution ID: S03718
If you are an end-user, you should contact your reseller to generate. You may need to include your store ID, your operating system, the ShopSite product you will be using, and the URL you would like authorized. Your reseller can provide the details.Solution ID: S03718
If you are a CSP partner, contact your ShopSite account manager to generate new auth files. You may need to include the specific store ID, your operating system, and the ShopSite product and the URL to authorize. Your account manager can provide the details. Solution ID: S03718
