Will custom template tags work in the back office text fields?

Product: ShopSite Manager and Pro
Version: ALL
Platform: ALL
May I use the template tags (as defined in the Custom Template Specifications) in the back office text fields?
For example, can the search field = [-- SEARCH_FORM --] be inserted into the footer section under
Preferences | Page Header & Footer?Solution ID: S03802
No. These tags will not work in the ShopSite back office.
Please see instructions on Custom Templates and Themes in the online help at
http://www.shopsite.com/help/ for details on how to use custom tags.
