ShopSite Knowledgebase

Is it possible to customize the template that displays the product search results?

Product: Pro and Manager
Version: ALL
Platform: ALL
I'd like to customize the HTML page that shows the results of a product search. Can this be done using the Custom Template feature in Pro and Manager?
Solution ID: S03868
Solution ID: S03868
Options for customizing the search settings are found under Preferences > Search Settings. For version prior to v7.1, these are the only options available for customizing the search results screen.
In ShopSite v7.1, custom templates for the search results page was added. For more information on customizing search templates in ShopSite Pro, search for "custom search template" under your version of ShopSite (v7.1 or greater) at: http://www.shopsite.com/help/
