

## **ShopSite Knowledgebase**

### **Can the Quantity, Name, SKU, or Price fields be removed from the shopping cart screens?**

Product: ALL

Version: ALL

Platform: ALL

Can I keep any of these fields from being displayed in the shopping cart, checkout and thankyou screens?Solution ID: S04067

Yes, in ShopSite Manager and Pro it is possible to remove and re-arrange the columns that appear for the list of products in the shopping cart via a custom shopping cart template. See the description of the additional parameters available for the [-- SC\_Cart --] template tag in the custom template documentation for your version of ShopSite.

Note that you can change the labels above the columns through the text settings in Preferences -> Store Text -> Shopping Cart.
