Displaying Image ALT tag text while waiting for image to load in IE browser

Product: ALL
Version: ALL
Platform: ALL
Default browser settings for Netscape show the ALT tag text before the full image is loaded but IE does not. For those with a slow connection it may be useful to have the ALT tag text displayed while you wait for your browser to finish downloading the image. Solution ID: S04137
To see the ALT tag text in IE (v5.5), select Tools -> Internet Options and then select the Advanced tab. Scroll down to the Multimedia section and check the "Show image download placeholders" box.
