

## **ShopSite Knowledgebase**

**When using the Edit Page Layout / Item Alignment feature, the "Staggered - Start left" starts items on the right.**

Product: SC + TX

Version: 4.x, 5.0

Platform: ALL

I'm trying to change the item alignment on my page to start on the left. However, when I select the "Staggered - Start left" option under the Item Alignment setting in the Edit Page Layout screen, the items start on the right. I don't see a difference in the page layout when I select "Staggered - Start right." Solution ID: S04202

This is a problem with the "Staggered - Start left" template code. It is logged to be fixed in a future version of ShopSite. Solution ID: S04202
