What exactly is the tech newsletter, ShopSite Tech Bulletin? Solution ID: S04759

The purpose of the ShopSite Tech Bulletin email list is to help keep you informed of important technical issues and announcements. It is used to notify subscribers of new releases, maintenance releases, patches, or other important technical issues. This service is free of charge, designed for a technical audience, and is generated only when we have something important to say. Expect the ShopSite Tech Bulletin to include the type of information you, as a partner, merchant, power user, or support person, need to help do your job. This email list is an announce-only mailing list. Any reply mail will not be posted to the other subscribers, or receive a response.

To SUBSCRIBE or UNSUBSCRIBE to this email list, see the instructions at:
