How can I customize my shopping cart pages? (order.cgi > billing.cgi > thankyou.cgi)

Product: SC

Version: 5.0 and earlier

Platform: ALL

I'd like to change the style and look of my shopping cart. What are my options? Solution ID: S04741

Solution ID: S04741

Depending on your version of ShopSite (Lite vs. Mgr. vs. Pro - see solution S04125), the Cart pages may be customized primarily through two ShopSite screens. These screens, with their corresponding 5.0 help links:

Commerce Setup > Order System (sbconfig.cgi)

<http://www.shopsite.com/help/5.0/en-US/sc/pro/customize.order.system.html>

Preferences > Store Text (worldconf.cgi)

<http://www.shopsite.com/help/5.0/en-US/sc/pro/store.text.html>

In ShopSite Pro, the Order API feature (Merchandising > Order API *or* ccgisettings.cgi) allows for some additional customization that may affect the buyer's checkout experience:

<http://www.shopsite.com/help/5.0/en-US/sc/pro/order.api.html>

In ShopSite Lite, the CSP Partner may customize the Lite graphics through file access. Details are available at:

<http://www.shopsite.com/help/5.0/en-US/install/upsell.lite.html>

As of version 5.0, there are no additional supported options for customizing the ShopSite cart.
